

Spring Courses 2008

The Kawartha Chapter of APICS is again presenting complete exam and study packages for those interested in writing the certification tests. We currently have one group moving on to the **Execution and Control of Resources** and a new group starting the **Basics of Supply Chain Management**.

Basics of Supply Chain Management

Explore the basic concepts in managing the flow of materials in a supply chain. In the Basics, you get a complete overview of material flow, from internal and external suppliers to and from your organization. Topics include: Elements of the Supply Chain, Just-in-Time (JIT), Total Quality Management (TQM), Manufacturing Resources Planning (MRP II), Demand Planning and Capacity Management. The BSCM package includes 24 hours of exam content related instruction, the CPIM student guide, sample questions, readings, a certificate and the fee for the exam. This is an excellent course for people new to the field of manufacturing planning and control, including those not interested in further certification. The classes will be held on **Saturday March 15, 29 and April 5** in Peterborough.

Execution and Control of Operations

Focus on the areas of prioritizing and sequencing work, executing work plans and implementing controls, reporting activity results, and providing feedback on performance. The course explains techniques for scheduling and controlling production processes, the execution continuous improvement plans, and the control and handling of inventories. Topics include: Prioritizing and Sequencing Work, Executing Plans and Implementing Controls, Authorizing and Reporting Activities for Push and Pull Systems, Evaluating Performance and Providing Feedback. The package includes 16 hours of instruction, study guide, sample questions, readings and the fee for the certification exam. Classes will be held on **Saturday March 29 and April 5** in Peterborough.
